Guidelines for the Use of the Corporate Style

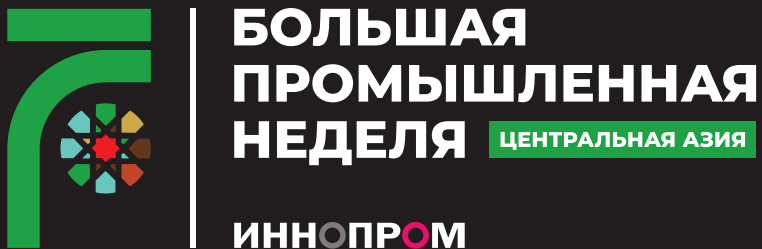

ANNIVERSARY LOGO / BASIC VERSION

This version of the logo is preferred for use on as many layouts as possible if the overall design and technical ability to reproduce colors correctly allow it.

In the case of reproduction of the logo on a white background, the green background color should be used as a background for the logo.

In the case of reproduction of the logo on a white background, it is necessary to use the color version of the logo with partial inversion.

CORPORATE BACKGROUND / OPTION 1

The basic corporate background includes INNOPROM's recognizable color, its shades, and the shapes used in the trademark of the basic version of the logo.

This background can be freely scaled and enlarged by copying the elements placed on it and positioning them at the designer's discretion. It is recommended for use on large advertising structures, brand racks, and other image layouts.

CORPORATE BACKGROUND / OPTION 2

CORPORATE BACKGROUND / COMBINED VERSION

The combined version can be used on various advertising layouts, facades, and other surfaces; the guidelines do not restrict its use.
